NOV 11 1971

NOTE: This was a copy of final map which BPS prepared showing the boundaries of each parcel cut out of the former FHWA land.

GS-32

Mr. L. E. Nunnally
Regional Director, Regional Property
Management and Disposal Services
General Services Administration
Washington, D.C. 20407

Dear Mr. Nunnally:

This letter is for the purpose of confirming agreements reached at a recent meeting attended by you and representatives of the National Park Service (NPS), Central Intelligence Agency (CIA), and the Federal Highway Administration (FHWA). The agreements concurred in by the above agencies are as follows:

1. The new south boundary line running east and west separating CIA and FHWA property is in accordance with the enclosed drawing.
2. The right-of-way line running north from Route 193 along the access road to the FHWA property line shall be approximately ten feet to the east of the paved edge of the access road.
3. The FHWA employees and visitors to our facilities will have continued use of the access road from Route 193 during normal work hours or from 6 a.m. to 6 p.m.
4. The NPS will permit use by FHWA of certain designated areas on this property for research projects currently in operation.
5. The FHWA will have complete control over the entrance and access road from the George Washington Memorial Parkway near the north entrance gate to CIA.
6. The FHWA will be reimbursed for the land survey and markings by NPS and GSA. The plats with notes and bounds descriptions of the survey will be completed about November 15, 1971, and copies will be sent to your office, NPS, and CIA. When the survey work is completed, we will be ready to have representatives from your office, NPS, and CIA, review our property files to obtain copies of required documents relating to the land distribution.

Sincerely yours,

LAWRENCE S. CASAZZA

John R. Provan
